as geographic coordinate systems. A projected coordinate system based on a map projection such as transverse Mercator, Albers equal area, or Robinson, all of which (along with numerous other map projection models) provide various mechanisms to project maps of the earth's spherical surface onto a two-

Coordinate Systems and Map Projections. There are several ways to refer to a coordinate system. Some people casually refer to any coordinate system as a "projection", but this is not strictly true.

### **Coordinate Systems and Map Projections - vterrain.org**

A map projection is a systematic transformation of the latitudes and longitudes of locations from the surface of a sphere or an ellipsoid into locations on a plane. Maps cannot be created without map projections. All map projections necessarily distort the surface in some fashion. Depending on the purpose of the map, some distortions are acceptable and others are not; therefore, different map ...

Web Mapping Service (WMS): [Web Mapping] A WMS is nothing but a bunch of tiles pre-established on the server side that has images of the layers youâ€™re interested in. When you request a map, the server sends you image pieces of that map in tiles. For performance, they can pre-cache the images ahead of time with set scales ahead of time.

A geographic coordinate system is a coordinate system that enables every location on Earth to be specified by a set of numbers, letters or symbols. The coordinates are often chosen such that one of the numbers represents a vertical position and two or three of the numbers represent a horizontal position; alternatively, a geographic position may be expressed in a combined three-dimensional ...

A Brief History of WMS . Open Geospatial Consortium, OGC, has been an influential geospatial standards body since the late 90â€™s. OGC standards are at the root of SQL spatial databases, commercial GIS tools, as well as most open source mapping projects found at OSGeo. OGC standards have been adopted at all levels from Microsoft SQL Server, Oracle Spatial, ESRI, and AutoCAD to PostGIS, GeoServer ...
