About the Advanced Placement Program<sup>®</sup> (AP) The Advanced Placement Program<sup>®</sup> has enabled millions of students to take college-level courses and earn college credit, advanced placement, or both, while still in high school. AP<sup>®</sup> Exams are given each year in May. Students who earn a qualifying score on an AP Exam are typically eligible to receive college credit and/or placement into advanced ...

Drug design, often referred to as rational drug design or simply rational design, is the inventive process of finding new medications based on the knowledge of a biological target. The drug is most commonly an organic small molecule that activates or inhibits the function of a biomolecule such as a protein, which in turn results in a therapeutic benefit to the patient.

Scope of application. Commonly referred to as a 3D Product Lifecycle Management software suite, CATIA supports multiple stages of product development ( ), including conceptualization, design ( ), engineering and manufacturing ( ). CATIA facilitates collaborative engineering across disciplines around its 3DEXPERIENCE platform, including surfacing & shape design, electrical, fluid and electronic ...

The COLORCUBE: 3D Color Puzzle is a high-end, precision manufactured model - featuring machine-milled parts (specific to .001"), the clean finish of high-impact color-injected polystyrene plastic cubes and glass-reinforced nylon rods. Once complete, the COLORCUBE is a 9" multi-function toy. Here are some of its many applications: ...

VOCABULARY ELEMENTS OF ART: The visual components of color, form, line, shape, space, texture, and value. Line An element of art defined by a point moving in space. Line may be two-or three-dimensional, descriptive, implied, or abstract. Shape An element of art that is two-dimensional, flat, or limited to height and width.
