4 Dealing with disasters is a key part of the work of the International Federation of Red Cross and Red Crescent Societies (the International Federation).

An introduction to vulnerability and capacity assessment

A disaster is a serious disruption, occurring over a relatively short time, of the functioning of a community or a society involving widespread human, material, economic or environmental loss and impacts, which exceeds the ability of the affected community or society to cope using its own resources.. In contemporary academia, disasters are seen as the consequence of inappropriately managed risk.
