Compliance gaining is a term used in the social sciences that encompasses the intentional act of altering another's behavior. Research in this area originated in the field of social psychology, but communication scholars have also provided ample research in compliance gaining. While persuasion focuses on attitudes and beliefs, compliance gaining focuses on behavior.

Checklist of capabilities: 15 essential features to look for in an encryption system. While GDPR tells organisations what they must do, the legislation does not cover the technical aspects of how to achieve compliance.. We recognise that it can be confusing for CISOs, CTOs and CIOs to distinguish which features are necessary in an encryption system.
