Written in the Stars is the story of my heart. While Naila's story is entirely fictional, her struggles were inspired by real life events from situations my own childhood friends went through and from stories I saw in the news about girls from all over the world forced into marriages they didn't want.

MASSIVE STARS Once massive stars reach the red giant phase, the core temperature increases as carbon atoms are formed from the fusion of helium atoms. Gravity continues to pull carbon atoms together as the temperature increases forming oxygen, nitrogen, and eventually iron. At this point, fusion stops and the iron atoms start to absorb energy.

Written in the Stars is actually a book I don't recommend reading the synopsis for, as I feel it spoils a lot of elements of the book. I know I know I just posted the synopsis. But that is my review structure and I'm sticking to it. First off, this was a very interesting story about a subject matter I had never read about before.
