Brain Age is designed to be played a little each day, similar to the Nintendogs titles and Animal Crossing: Wild World. The Nintendo DS is held on its side, with the touch screen on the right for right-handed people and the left for left-handed people. The game is entirely touch and voice-controlled – the player either writes the answer to the puzzle on the touch screen or speaks it into the ...

Mike, your comments are very clear to me and I believe you're on the right track with your questions and speculation. My current thoughts are that this reality is rapidly approaching something with steep challenges that we don't necessarily recognize (yet), and to those with more insights than the public generally have reality-shifting (some variation of it) looks like the best Plan B.
