This is especially so with the first part of this collection of Dhamma talks, To the Last Breath. For these were given under quite special circumstances: A person, quite knowledgeable about Buddhism, is dying of cancer. The emphasis is therefore very much on dealing with pain, suffering and, finally, death.

“Till the Last Breath”™ is a about romance and sacrifice. Its location is somewhat offbeat; a hospital. I feel that ROOM # 509 could have been an equally apt title for the story. This room in the hospital is the centre of the story. The real story begins way down after all characters orbiting the two young patients have been introduced.

### **Till The Last Breath by Durjoy Datta - goodreads.com**

To investigate these dynamics, we recorded spike trains from the olfactory bulb of awake, head-fixed mice and found that some mitral cells’™ odor representations changed following the first breath and others continued after odor cessation.

The Olfactory System To understand how your sense of smell worksâ€”how your nose takes in smells and the olfactory system perceives themâ€”you need a brief introduction to the anatomy of this system. The main parts of the olfactory system are shown on this page.

## **Sense of Smell Unit - tools.niehs.nih.gov**

Human olfactory psychophysics Andreas Keller and Leslie B. Vosshall Of all the senses, smell is the least understood. Despite centuries of investigation, science can still offer no satisfying theory for why a particular substance smells the way it does. Nor do we understand in any detail how we are able to distinguish the smell of a peach

Olfactory reference syndrome received a peer review by Wikipedia editors, which is now archived. It may contain ideas you can use to improve this article. It may contain ideas you can use to improve this article.

## **Talk:Olfactory reference syndrome - Wikipedia**

The axons projecting from the olfactory receptor cells via the olfactory nerve terminate within the olfactory bulb. The olfactory bulb is the main relay station within the olfactory pathway. Information from the receptor cells is passed to cells whose projections make up the subsequent olfactory tract.

“Your Last Breath” by The Purification X-Per, C APTAIN J OSEPH C. S MITH A firefighter’s life depends on the quality of air in the breathing apparatus.

## **“Your Last Breath” - lawrence-factor.com**

The vasodilation by nitric oxide increases the surface area of alveoli, where oxygen is absorbed in the very end of bronchial tubes, which means more oxygen is absorbed more efficiently when you breathe through your nose. "Nasal breathing (as opposed to mouth breathing) increases circulation, blood oxygen and carbon dioxide levels, slows the breathing rate and improves overall lung volumes.
